D. Student Advisory Group for Campus Reopening Update

1. Last night the group gathered, and they were joined at the beginning by Father Jenkins to discuss recent events.. Following this, he sent out a video to the student body that I am sure many of you have seen.
2. Also joined by the Provost. The provost is very aware that we are in need of some sort of break. Continue to fill out the survey about ideas and interest for next semester break alternatives. We have welcomed feedback from students about the semester and the lack of break, and we are coming off of these conversations very hopeful. The final decision will be made likely by the end of the month. Information about the January mini semester will be made available at the beginning of November.

E. Campus Life Council (CLC) Update

1. Met for the first time today! The rectors were able to speak on behalf of how students were doing and how they thought the restrictions were going over. There were also student opinions provided about why they think students may be backsliding in their behavior. We also talked a lot about student mental health. As Sarah said, thank you for filling out the survey and for being so candid with your responses about the spring semester break. Please let me know of any topics and concerns that you would like to be discussed at future meetings.
