

Committee on University Affairs  
Student Senate  
University of Notre Dame  
Resolution SS0506-24

## **Resolution Supporting the Creation of a Living Wage Joint Task Force**

**Recognizing** that the Student Senate supports the implementation of a living wage on campus;  
and

**Recognizing** that the Office of Institutional Equity and Staff Advisory Councils do handle some worker issues, but do not have governance to raise wages; and

**Recognizing** that there exists no official body on campus which represents the interests of University workers regarding wages, benefits, conditions, and pensions; and

**Recognizing** that administrators, students, workers, and faculty must work together to make the University a socially just institution;

**Therefore be it resolved** that a Joint Task Force comprised of administrators, students, workers, and faculty shall be created;

**Therefore be it further resolved** that during the commission of the Joint Task Force, the University shall put a moratorium on all outsourcing of jobs which shifts the responsibility for labor practices from the University to an outside entity.

*Passes unanimously*
