Committee on Campus Copy Services
Department of Business Operations
415 Main Building
Notre Dame, IN 46556

Dear Committee Members,

On behalf of the Notre Dame Student Body, and as a result of our concern for the needs of the Student Body with regards to copy services here on campus, we would like to offer this letter of affirmation for the fine services having been provided for the Student Body by the ND Copy Shop.

The ND Copy Shop has proven over its twenty years of experience here on campus to be an extremely reliable and very helpful copy and print service alternative for students. Their current capabilities; their low contract pricing with student groups, residence halls, and students in general; their extremely low costs as compared with outside vendors; their current technological capabilities in linkage with the resnet system here on campus; and their genuine effort and will to expand upon and improve their services and to cater directly to students, all combine to make the ND Copy Shop a model for any copy service vendor who could possibly be chosen to serve student needs.

In any decision you make with regards to consolidating copy services here on campus, we would urge you to hold in high importance the services and overall level of excellence already offered by the ND Copy Shop. Let us make this clear: we are very much open to other options and possibilities for alternative vendors who would also uphold equal, if not greater, levels of excellence. However, we would like to stress the fabulous job the ND Copy Shop has done over the years in dealing with students, helping students to complete difficult tasks and projects, and the incredible level of customer service which they have consistently provided and exemplified.

Thank you very much for considering ^{our} input on this extremely important concern to students.

Sincerely,

The Members of the Student Senate
