

Resolution Expanding the Pharos Student Printing Account System to the University Libraries

COGNIZANT that the efficient use of campus resources benefits all members of the Notre Dame community;

WHEREAS the University Committee on Libraries ~~has~~ recognizes and seeks to address the costly misuse of its library printing capabilities;

UNDERSTANDING that abuse of community resources, such as library printers, will eventually lead to greater aggregate costs, undoubtedly incurred upon students;

WHEREAS print clusters elsewhere on campus, employing a student printing account system, promote conservative, efficient printing practices;

COGNIZANT of the current option of faculty members to provide additional funds to student accounts through their respective departments as that faculty member deems necessary;

THEREFORE BE IT RESOLVED that the University Committee on Libraries adopt the Student Printing Account System throughout its libraries in an attempt to more efficiently utilize campus resources.
