

At this time, I am thrilled to extend my full recommendation to **Meghan Swantkowski** for the position of the **President of the Shirt Project** at Notre Dame. Meghan is a current senior majoring in Biology and Anthropology and is already an accredited and active member on Notre Dame's campus beyond her responsibilities with the Shirt Project.

Meghan has been a part of the Shirt Project since her sophomore year on campus. During her sophomore year, Meghan served as the Unveiling Coordinator and organized all student group performances, food trucks, and planning to promote a hybrid unveiling during Covid-19. In addition, this year, Meghan has served as the Vice President of The Shirt and learned about the administrative behind the scenes work that occurs for The Shirt Project directly from the prior president, Grace Fjermedal. Meghan has truly proved her leadership capabilities since she recently assumed the role of President in April. I have been beyond impressed with her ingenuity, thoughtfulness, and dedication as Vice President and now President of the Shirt Project.

I can recommend Meghan without reservation and I am requesting that Senate approve her nomination as a result of her extensive qualifications, years of experience, and continued dedication to The Shirt. Thank you for your time and consideration.

Respectfully Submitted,

Grace Fjermedal
President of the Shirt 2022
